WHO I AM

I was born in Bologna in Emilia Romagna and I live in Lovere, a small town on Lake Iseo in the province of Bergamo, in Lombardy.

I also lived and worked in the city of Padua and studied in the city of Venice in the Veneto Region. My grandparents come from the Prosecco area between Valdobbiadene and Conegliano. The grandfather was one of the founders of the white wine route.

I have always cultivated a passion for travel and sport. I like to discover territories, history, traditions and places and I like to do it by bicycle.

In June 2016, while I was still working in the office, I started my new activity with the event The Floating Piers, of artist Christo. At the beginning of the year 2018, I made up my mind and turned my passions into my work, working full time in the tourism field.

I am a guide specialized in cycling and walking tours, I customize each tour for each group or client. I organize my tours and also provide support for individual requests or for tours already organized by others.

I am a certified mountain bike guide and an authorized NCC driver with a regular VAT number.

My vehicles are: a bus for the transfer of 8 passengers and bicycles inside it in separate bays and a car for the transport of 4 passengers with a trailer for 6 bicycles.

I also provide muscle bikes or e-bikes.

I worked for 6 years in the CAI association (Italian Alpine Club) of my section in Lovere as a volunteer in charge of the secretary, 3 years of which I was also part of the board.

In 2018, I took part in the constitution of the cycling commission of Bergamo and was a member of the board for the first year, in the CAI of Bergamo, my province..
