

Middle Camonica Valley

Visiting the Valcamonica by Bus and on foot

Unesco World Heritage

A surprise tour in the Middle Camonica Valley, leaving from Lake Iseo and then on to the land of the prehistoric Camuni, the first Italian Unesco World Heritage site of petroglyphs. You will visit fortresses built on the remains of old dwellings dating back long before Medieval times, showing the development of art in this valley. Mount Concarena and Pizzo Badile Camuno will please us with wonderful views, as we will move from the river to old villages, and even a Roman pagan temple and an amphitheatre. We will find out what Brè is and visit the lodge where it is aged, have lunch at a typical Italian trattoria and you taste on your return a good wine, if you wish.

Why there?

Because we will be riding there, which is a simple and fun way to get to know the area.

This valley is still genuine as for people and nature. A land rich in iron, which was actually extensively extracted, that became raw material for craftsmen and artists. Free expression of local

art can be found in little churches and most of all in the carved *Pitoti*. And then again, high quality new local products besides the traditional cuisine made of polenta cooked on the fire place.

You do not have to worry about anything, there is no hurry...just fun, which will be around the corner despite any weather condition.
